

About Me

Hi! My name is Daniel Pustotin. I am *iOS Developer*

Motivated and passionate iOS developer with experience in QA-Engineering and automatic testing. Skilled in UIKit, SwiftUI, Reactive programming, and network and data storage frameworks. Strong problem-solving and leadership abilities, with a goal of creating innovative and revolutionary products.

GitHub

Education

- **Higher School of Economics**
 - Bachelor of Computer Science
 - *2019 - 2024*
 - Applied Mathematics and Information Science

Skills

Stack

- Git
- Smart SVC
- JIRA
- Figma
- Proxyman

iOS stack

- UIKit, SwiftUI, Storyboard
- Reactive programming: Bond and RxSwift
- Network: Alamofire, experience with creating and working with REST API
- Storing data: UserDefaults, CoreData, Realm
- SpriteKit
- Unit/UI testing
- GCD and operations
- Asynchronous programming

Basic knowledge

- Design patterns
- REST API
- Makefiles and scripting
- Managing the project structure

Engineering Experience

- **QA-Engineer**
 - *GS-Soft*
 - *May 2018 - July 2021*
 - Full-stack development
 - Primarily automated testing and QA-engineering
- **iOS-development courses mentor**
 - *Skillbox*
 - *June 2021 - April 2022*
 - Homework reviews and mentoring
- **iOS-development courses creator**
 - *Skillbox*
 - *September 2021 - April 2022*
 - Improvements of existing courses
 - Creating tasks and theory long reads for students
- **Tinkoff iOS developer internship**
 - *Tinkoff*
 - *Feb 2022 - May 2022*
 - Fixing critical issues and vulnerabilities
 - Implementing new features for Mobile Bank
 - Developing new module for app
 - Improving existing modules structure

Awards and Achievements

- *ICPC* 2020 - Semifinalist
- *HashCode* 2021 - Top-30%
- *Reply Challenge* 2021 - #105 of 1923
